

## LYNGSOE INTELLIGENT RETURN SHELF™

### SMART RFID SELF-CHECK

The shelves, with embedded RFID antennas, are specially designed for checking in returned items. Ideally, shelf placement is near the library's entrance.

When items are returned to the Intelligent Shelf, the item's information is sent directly in the library's system, where it is updated and registered as returned.

### FAST MATERIAL CHECK-IN

Returning materials is as simple as placing an item on a shelf, any shelf! It is that simple and that quick. No more lines, no more waiting! All items are scanned and checked in within 5 seconds!

### AUTOMATIC SECURITY

The item's security bit is automatically switched on when they are returned to the Intelligent Shelf. Security gate alarms will be activated when exiting the library if items removed from the Intelligent Shelves have not been discharged properly.

### INCREASED CIRCULATION, LESS STAFF HANDLING

Patron interest is peaked by recent returns. Experience has shown 35% of items returned to the Intelligent Shelves are checked out before needing to be reshelfed.

### BENEFITS

- Fast check-in
- Easy to expand
- Stylish design
- Easy to use
- Multiple items simultaneous return
- Books immediately available for check-out
