

PLAGIARISM PREVENTION AND DETECTION

TOGETHER, LET'S DEVELOP A CULTURE OF INTEGRITY AT YOUR INSTITUTION

- ✓ Boost your plagiarism prevention and empower your students.
- ✓ Easily detect suspicious texts, whether they are translated, AI-generated or altered.

Do you want to prevent and detect plagiarism at your institution?

Adopt the Compilatio approach, a mix of pedagogy, technology and guidance.

Your commitment to education with Compilatio

Your students at the heart of the process

Continual support and monitoring of your anti-plagiarism policy.

Assistance in teaching best practices for writing for your students.

Analyse assignments of similarities with online sources and the Compilatio database.

Visual comparison between the document and the detected sources.

Interpret the similarity rate according to displayed results.

Safeguard teaching quality and the institution's reputation.

A unique approach

Frédéric AGNÈS

Director of Compilatio

*"Compilatio was created with the ambition to provide tools and services that contribute to the **evolution of learning and assessment**.*

*We have a particular focus on designing **tailor-made support and solutions** that are designed and (re)developed to be easy, simple and quick to use.*

*We want to offer **everything the user needs**, when they need it. Users have full **independence and freedom** with Compilatio services and data management."*

Compilatio brings you

Credibility by affirming the value of your teaching and the diplomas awarded.

Autonomy with resources and functionality in your interface.

Support and guidance for teaching staff.

Empowerment of your students with copyright training.

Plagiarism prevention

Raise awareness
Guide
Evaluate

with Compilatio

Raise awareness of plagiarism

Raise awareness

with Compilatio

Why?

So that students know which **standards of behaviour** to follow during their studies... which they will also have to embody later on, in their **professional and civic life**.

74%

of students are tempted to plagiarise in a thesis.

55%

of students say they use generative AI.

46%

of students do not know how to cite sources.

How?

Implementing an integrity policy with

- **appropriate communication**: Compilatio provides ready-to-use awareness-raising materials;

- **defining a regulatory framework** and the values promoted at your institution: Compilatio provides templates to use.

What benefits?

- ✓ To promote the **institution's anti-plagiarism policy**.
- ✓ **Raise awareness** about copyright.
- ✓ **Affirm the values of ethics** and integrity.

Guide to the prevention of plagiarism

Why?

So that students know how to embody the **values of integrity** demanded by the institution.

How?

Coaching teachers and students

Educational resources with the toolbox: quizzes, tutorials, methodological guides, articles, citation standards...

Training teachers and students

Compilatio modules to be chosen according to your objectives: raising awareness, standardising knowledge, uniting around the project, reinforcing the citation methodology, etc.

What benefits?

- ✓ Sustain your **plagiarism-prevention approach**.
- ✓ **Train your staff and students** on best practices.
- ✓ Unite around **academic integrity**.

Evaluate with Compilatio Magister and Magister+

Evaluate

With Compilatio

Why?

To ensure that **students are able to apply the instructions** throughout their course.

How?

Supporting students

during the writing process
(pedagogical analyses).

Helping with assessment and correction

student work (evaluative
analyses).

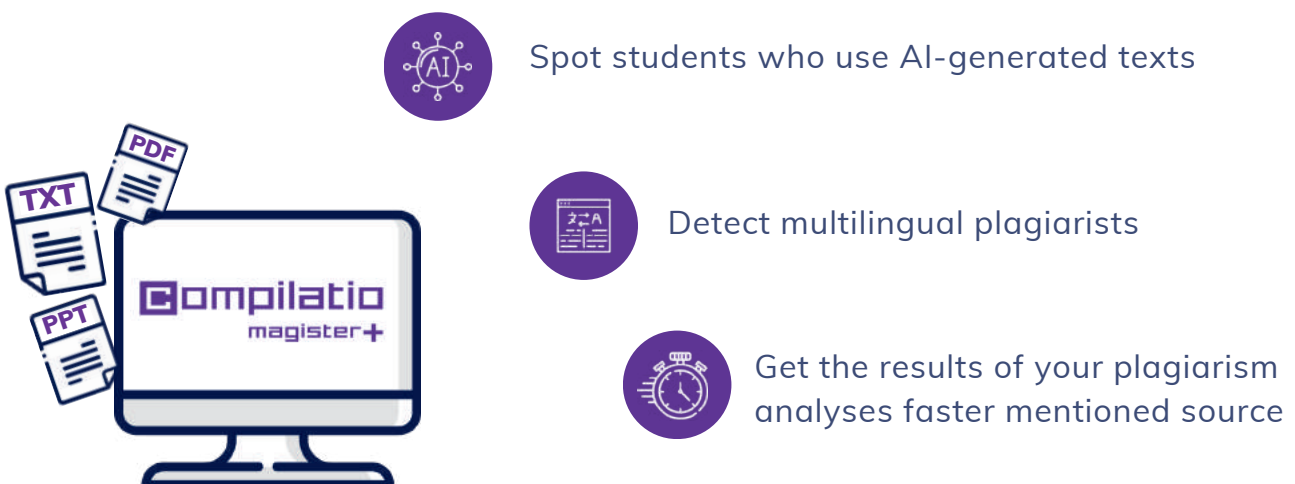

What benefits?

- ✓ Save time grading.
- ✓ Have **objective indicators**.
- ✓ Promote **pedagogy** and best practices.

With Compilatio Magister+ you prevent and detect many forms of cheating

Compilatio magister

The benefits of Magister and Magister+

Ease of deployment:

- online,
- without installation,
- creation of accounts by simple request to the Project Lead,
- potential integration into your educational platform.

Reliable analyses including comparisons with:

- billions of freely accessible web pages and over 200 millions items of content (Compilatio's own database),
- documents uploaded to the software by your teams,
- documents uploaded by other users.

Flexible adjustment of results:

- passages to be ignored,
- sources to be excluded.

Feature performance :

- Interfaces and analyses in several languages,
- integrated educational resources,
- different document formats accepted: .pdf, .txt, .xls...
- percentage of similarity rate,
- location of borrowed material,
- accept submissions of student work without a "student" user account required.

[More information](#)

Compilation magister

Choice of document loading method

Manual addition of works saved in your computer.

Submission of work by your students via a URL to be distributed to them.

The screenshot shows the Compilation Magister interface. On the left, there is a sidebar with a '+ New folder' button and a list of folders: 'Default folder', 'Folder name 1', and 'Folder name 2'. Below the folders are 'Document database' and 'Recycle bin' options. The main area displays 'Folder name 1' with a '+ Add documents' button and a 'Collect and share' button. A 'Toolbox' button is located at the top right. The document list below shows four documents with their respective progress bars and 'Report' buttons.

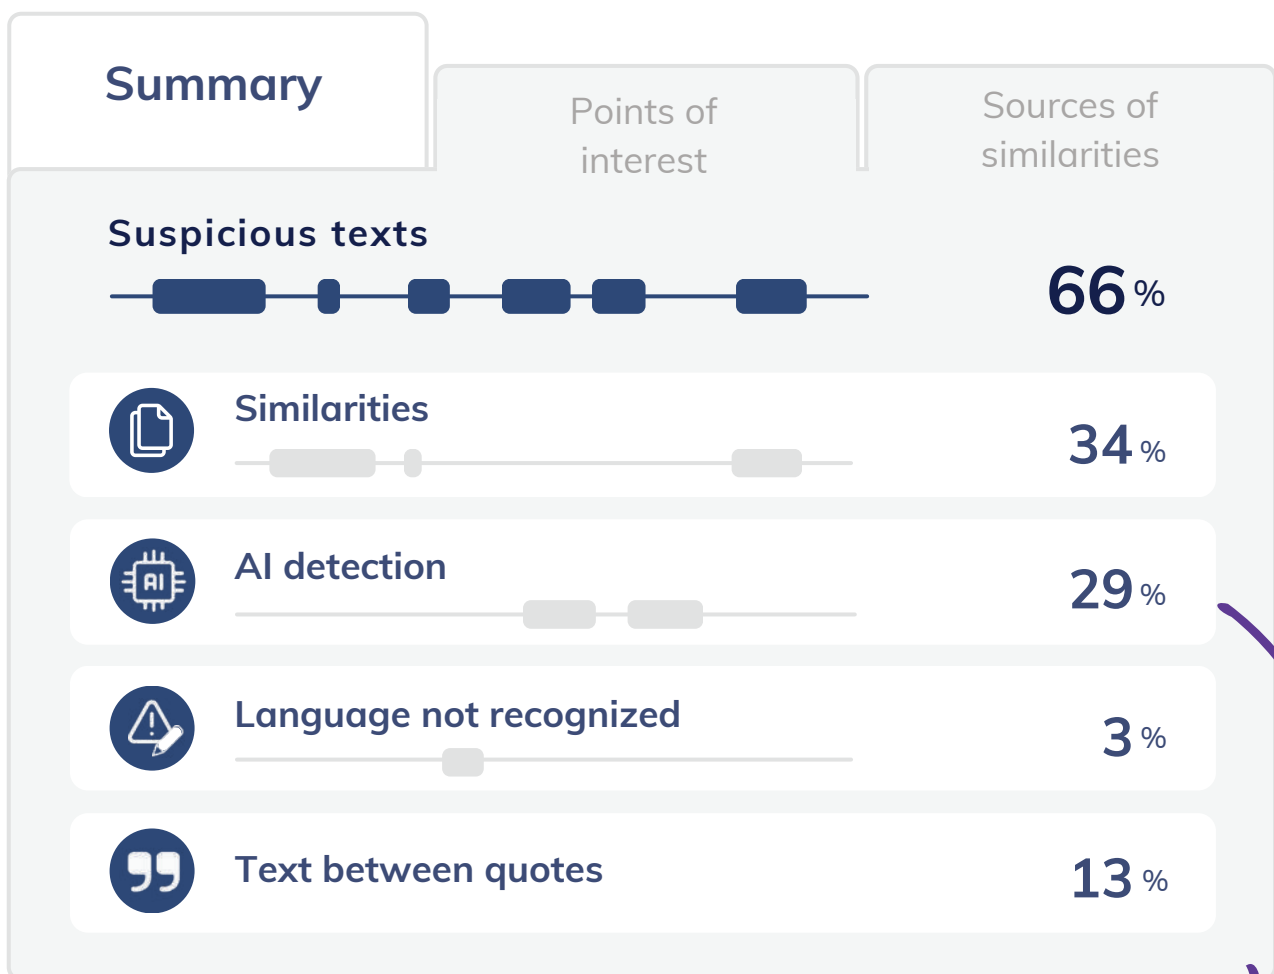

Document name	Progress	Action
Document name 1 Further information	43%	Analyse, Report
Document name 2 Further information	22%	Report
Document name 3 Further information	8%	Report
Document name 4 Further information		Report

Benefits of having your students collect their work:

- saving time,
- increased awareness,
- greater involvement on the part of students who become actors in the process.
